2010-2011 San Francisco Bay Area Lecture Series

Greening the Green Revolution: Feeding a hot, hungry continent sustainably

featuring

Sandy Andelman

Vice President, Tropical Ecosystems Assessment & Monitoring
Conservation International

Feeding Africa's growing population and supporting competing demands on delicate natural resource systems sounds like an impossible task. Yet scientists at Conservation International and other organizations are using cutting-edge science and modeling techniques to help decision-makers maximize the output of their resources and create sustainable green economies.

Tuesday, September 28, 2010 (6:30 pm)
